WALKER WEAR RETIRES.

ANOTHER MISSOURI DEMOCRAT MAKES ROOM FOR A GOOD REPUBLICAN.

The Struggle for the Secret Service Chiefship Likely to Result in the Appointmen of Col. Brooks-Nothing in the Herror -An Important Treasury Decision-

By Telegraph to the Post-Disparch.
Washington, D. C., July 25.—This morning cement was made that Walker Wear of Missouri, will retire from service in the pension office. After severing his connection as Superintendent of the Yellowstone Park, Mr. Wear came to the capital and through the instrumentality of Senator Vest and other friends was made chief of the southern division of the pension office, which place he has filled as a faithful public servant wear would be permitted to remain there and Col. Wells Blodgett and others interested themselves to that end. Mr. Wear was a soldier and a Missourian, yet the Secretary of the tary wanted the place for a Republican. Hence the change. Mr. Wear should not expect else, however, for he was just as de-strous for the election of a Democrat as the man who will get his place was for the success examination with a view of being retained as a clerk, but on August & he will go out alto-

That rotund, astute politician and lawyer, Jadge Seay of Union, Mo., is here again after Democratic postmasters' scalps. The offices he wants filled are all presidential appointments, but at present he is depending on the cleverness of Gen. Clarkson to make the mmendation. The Judge will remain

here but a few days. Capt. J. P. Hess of Macon, Mo., who came here with the idea that he could get the Post-office appointment at that place, will return home to morrow without his commission, with no prospects and very much disgusted. When he found that Maj. Brock had another man for the place and could not be induced to come over he surrendered.

come over he surrendered.

There has arrived from would-have-been Congressman Eubanks' district in Missouri, Mir. Mabrey, who is very anxious to get a Postoffice inspectorship. Some weeks ago Capt. Jehnson of Springfield, came here after place in the Interior Department. An Inspector's place in the Land Office was what he wanted, but \$\footnote{Congressman}\$ Wade and another man, Mr. McKinney of Pierce City, who succeeded, and Capt. Johnson has left the Missouri colony for home. He is an ex-soldier and was formerly in the Pension Office.

The contest for the secret service appointment goes merrily on and the Secretary of the Irsaaury will find it necessary to make a quick disposition of the matter to avoid hearing the pleas of Knights of Labor on the subject from all over the country. Powell Clayton has indoresed Frand Erskine of Missouri, so has Congressman Perkins of Kansas and Judge Peel of Arkansas. As a compromise a reconsideration of the subject may lead to the appointment of the former chief, Col. J. J. Brooks.

Goodman King and family are here, quartered at the Ebbitt, for a few days' stay.

Thos. Metcaif of St. Louis arrived here last evening and left this morning.

Duty on Garnette Wool Waste.

WASHINGTON, D. C., July 25 .- The Treasury Department to-day decided an interesting question in regard to the classification of socalled garnette wool waste. The question
arose on an appeal by J. Wild & Co. from the
decision of the Collector of Customs at New
York assessing duty at 30 cents per pound on
a recent importation of that merchandise
which they claimed to be dutiable at
the rate of 10 cents per pound. It
appears from the special report
of the United States Appraiser that
the merchandise consists of so-called woolen
waste which has been garnetted or put
through some process by which it is practicalily restored to the condition of unmanufactured scoured wool of the first class. In a letter to the Collector, Acting Secretary Batchelor says the question as to the classification
of merchandise of this character was decided
by the department on the 28th of October, 1857, and it was on
the 14th of July, 1887, held that
woolen waste which may have been broken
up and put through the garnetting machine,
whereby it becomes practically scoured wool,
was dutiable at theirate prescribed for scoured
wool, that is to say, when on the first class
and costing under 30 cents per pound in the
unwashed condition, at a duty of 30 cents per
pound as assessed. The Collector's decision
in the case in question is therefore affirmed.
The appraising officers recently in conference in New York considered the general
question as to the proper classification of socalled garnetted, carbonnated or other similar
wool wastes, and have reported to the Treasury Department that in their opinion
any process of manufacture whereby
the value and character of a refuse
article, such as waste of wool, have been
changed or enhanced and its identity as a
waste of worthless substance destroyed, so
that in fact it becomes secoured wool, it no
longer belongs to the category of waste, but
should be classified as scoured. The report
says:
"The so-called garnetted and carbonated
waste have undergone a very decided process question in regard to the classification of so

says:
'The so-called garnetted and carbonated waste have undergone a very decided process of manufacture; their value has been in-creased to within a trifle of the value of wood treased. creased to within a trifle of the value of wool fixelf; their appearance is made so closely to resemble the actual article as to deceive even experts, and by an admixture of the manufactured article with the natural wool, their purposes of use are identically the same and should in the opinion of the appraisers be classified for duty at the same rate as the wool from which they come and which they so closely resemble."

The acting Secretary informs the Collector that these views are in accord with the rulings of the department above mentioned and seem to be correct and proper.

Probable Cabinet Changes.

By Telegraph to the Post-Dispatch.

Washington, D. C., July 25.—One of the rumors now current is that Secretary Tracy Will be given the vacancy on the Supreme Court bench caused by the death of Justice Matthews. Secretary Tracy is a trained lawyer, and while fully satisfied with the naval portfolio would relinquish it in a moment if there existed a chance for the associate justiceship. Inquiry among naval officers could not confirm the story, but all admitted that the rumor was general in the department. Secretary Tracy has made himself a great favorite with the navy people by his strict attention to the needs of the service and doing all in his power to expedite the outiding up of an emicient fieet of vessels. It is for this reason that all the navy people who were conversed with hoped that the rumor was unfounded. Mr. Thomas, who is mentioned as a probable successor of Secretary Tracy in the event of a change, is well versed in all matters pertaining to the navy. He has been a member of the House Naval Committee all the time he was in Consens, a period covering nearly fon years. He is the designer of the submerging monitor authorized by Congress to be built and for which an appropriation of \$1,00,000 was made. Mr. Thomas was urged for the place very strongly in March last by the entire lilinois delegation and a contingent of Republicans all over the country. The fact that New York has a member of the court is not considered an obstacle. Ohlo for many years had not only two members, but had the Chief Justiceship for a quarter of a century. inted by Secretary Noble to inrating pensions in the Pension Bureau during the last year, were to-day busily engaged in examining cases. It is stated at the Pension Office that in the event that the committee discovers that reratings have been made in violation of law, the facts can be reported to the Commissioner and the law points out the course he is to pursue. The pensioners are given sixty days in which to show cause why their increased pensions were not illegally granted. If they fail to respond, then the Commissioner can have their pension certificates recalled and the amount adjusted to its legal limits. He can demand that the back pensions of any shall be returned and he has full authority to collect it as he would any other form of indebtedness. A statement is being prepared at the Pension Office showing the number of cases that have been mades special for any cause during the four months of Mr. Tanner's administration. It is stated by the pension officials that these special cases number less than one thousand.

BAILROAD NEWS.

Advance in Grain Rates-The Missouri Com-

Cricago, Ill., July 25 .- The Chicago eastbound roads are taking steps to put in effect August 1 the 25-cent tariff on all articles of grain except corn. The Baltimore & Obio perabove the 20-cent basis and consequently all roads, except the Chicago & Trunk, will continue to make a 20-cent rate on corn. The Chicago & Grand Trunk proposes to advance all articles of grain, including corn, but it is not probable that it will hold long to a higher rate on corn than other competing lines give. It is quite probable that the Chicago & Grand Trunk will bring the matter before the Interstate Commission and ask for a decision on the question through the Mill Creek Valley from his home whether railroads can legally make a lower at Kirkwood this morning, spoke of the possirate on corn, which is worth twice as ble new Union Depot. And that led him to much as oats, than on the latter. The decision of the Interstate Commission declaring it to be unlawful to make a lower rate to seaboard points on export traffic than on traffic consigned locally to seaboard points will probably necessitate another revision of the east-bound tariffs, as the railroads cannot afford to advance the export rates to the basis of local rates, but in order to hold their export rate the local rates to the present export rates.

The Question of Differentials.

a reporter for the Associated Fress this afternoon by a very prominent member of the
association:

"The published reports in the morning papers as to the terms aftered by the Canadian
Pacific and the terms offered by the Southern
Pacific in the matter of differentials is inaccurate. The fact is that at yesterday's meeting the question of differentials
was referred by the general meeting to the Executive Committee for
consideration and report, and by that committee it was referred to a subcommittee of
four members. This committee made a unanimous report, but it was not entirely satisfactory to either the Southern Pacific
or the Canadian Pacinc, and it is
still under consideration by the Executive
Committee. In the meantime this committee
has been in session during the forenoon, considering some of the thirty-three other subjects which are before it. It will be in session
again this afternoon, as also will the general
meeting and the freight and passenger committees. You may say that the association
is not going to pieces. There is a feeling in the association, and it has
only one or two exceptions, that there-should
be no differentials; that each road should accept its favorable or unfavorable physical
conditions and compete for the business at
equal rates. At the same time, in the interests of harmony, a small differential will be
conceded."

COMMISSION UNTIL OCTOBER 24.

The Parnellites Not Bendy to Sum Up-Irish Witnesses Returned to Prisonntences of the Breslau Strikers-Herr

LONDON, July 25 .- The Parnell Comm entered upon its long recess to-day. When the court met this morning Mr. Hardeastie, the court met this morning Mr. Hardcastle, an accountant, was called to the witness stand. He said that the books of the Land League which had been produced before the commission covered the whole period of the Lague's existence. He could not say that £75,000 which was unaccounted for, owing to the absence of the books of the Ladles' League, had been misappropriated. Mr. Soames, solicitor for the Times, in reply to a question by Mr. Sexton, said he could not tell witnin £10,000 the amount the Times had paid to witnesses. The sum, however, was very large. This concluded the taking evidence. Mr. Sexton, replying to a question by Presiding Justice Hannen, stated that he could not sum up the case in behalf of the Parnellites until he had consulted with his colleagues. Sir Henry James of counsel for the Times stated that he was not in a position yet to reply to the whole case. Presiding Justice Hannen informed Mr. Sexton that further evidence would be called if the commission considered it necessary, but the reasons therefor must be exceptional. The court then adjourned until October 26.

Presiding Justice Hannen ordered that Mr. Thomas Condon and Mr. John O'Connor, members of the House of Commons, who while serving sentences in Ireland for offences under the crimes act were brought to London to testify before the Parnell Commission, complete the remainder of their terms in a London prison.

CHOUTEAU'S POND. The Price Paid for the Gould Terminals

Years Ago-A Reminiscence. Michael McEnnis, coming in to business

through the Mill Creek Valley from his home the basin of Chouteau's Pond, "When I was a boy I went swimming in the pond many times," he said. "It was a splendid place to swim. The pond water was spiendid place to swim. The pond water was fresh all the time, being fed by the drainage from a large section of land, which extended away out into the county. The pond was about one and a quarter miles long and a quarter of a mile wide. I was taken with cramps while in the water one day, and would have drowned had not some of the boys pushed a floating log under my arms. They got me out after a great deal of trouble. My legs were aimost tied in a knot with the cramp. At the end of the pond was Chouteau's Mill. It was run by water-power, the pond wasting over a dam at the mill. I bought all the grain and sold all the flour of that mill when a boy. bought all the grain and sold all the flour of that mill when a boy.

"I can remember when Charles P. Chouteau sold the pond to the railroad company for a depot." Mr. Ennis chuckled as he recalled the sale. "Mr. Chouteau thought he was getting a great big price for the pond. He got specified as great big price for the pond. He got specified as great big price for the pond. He got specified as great big price for the pond. He got specified as great big price for the pond. He got specified as great big price then, but a very small section would bring that much money now."

They took their money de-serted their families and left the country together. Similar instances are reported as common. The payment of so much money to the indians is demoralizing them and makes many of them utterly reckless. One Indian wagered \$5,000 on a game of seven up with a Texas sharp and lost every dollar.

A Mysterious Transaction

On July 13 an unknown man drove up to the esidence of Thomas Horst, living near the Afton Post-office, on the Lemay Ferry Road and offered to sell his rig. Horst bought the harness and the stranger pulled the buggy back into the woods, saying he would return for it. He then mounted the horse and rode off. Since that time he has not been seen and the buggy still remains in the woods. It is of the side-bar Timken spring open patters. Near by was found a sack on which was printed "Seeds from Colorado Seed-house, Denver, Col., Barteloes & Co." The outfit is supposed to have been stolen,

brutally beaten by Patrolman Camp, has returned a report which says:

"I herewith report that I have investigated the arrest of Charles Baumstarck by Officer Camp on the 22d inst, About 8 o'clock on Monday evening, as Officer Camp was returning from supper to his post of duty he was accosted by M. Neagle of 1333 De Soto avenue, who requested him to arrest Baumstarck, who was shouting at some small boys at play in a new building in course of erection at the corner of Florissant and Linton avenues. As the officer advanced Baumstarck struck him several blows with a cane which he had in his hand. The officer then asked him if he had done the shooting? when he (Baumstark) became very excited and cautioned the officer to keep away from him. When he did approach near enough to place the man under arrest Baumstarck put his hand to his hip-pocket as if to draw his revolver, when Mr. Neagle called to the officer to look out, as he was going to shoot. Officer Camp then knocked him down. The prisoner was then taken to the sub-station. This was at \$\$\frac{1}{2}\$ (3). At 19 o'clock he was released on bail. At the station Baumstarck made no complaint of being injured and showed no signs of distress, the only mark visible being a small lump on the left temple. There was no sign of blood and the prisoner was both able to talk and to walk, which he readily did upon his release. At the time of the arrest several excited friends of Baumstarck's attempted to take the prisoner from the officer, and Leonard Heling went so far as to strike Officer Camp. The latter, to protect himself, was compelled to knock Heling down. Had it not been for Charles Haley and two brothers named Clark, Of England.

Ganote, with his brother Harry, was drowned at the foot of Tyler street on Monday evening last. They were in a trading boat with Emile Levy and brother, and were drawn under the steamer Henry Sackman. The Levy boys managed to save themselves by clinging to the side of the Sackman. Some very damaging testi mony was submitted by disinterested spectators, many of whom heard the decessed call for help, only to be answered by the Captain by the words, "You go to h—l."

Capt. McHenry himself took the stand, and while he admitted knowing that the boys were in great danger he denied that they had called for assistance. He admitted that little effort had been made to save them, but gave as an excuse that he had no time to act before the boat was swamped. All employes of the Wiggins Ferry Co. exonerated the boat official, but other witnesses, differed with them. The United States District Attorney is said to have taken the matter in hand. At a late hour this afterneon the Coroner's jury, after long deliberation, decided to hold McHenry criminally liable for the death of the Ganote brothers, and a verdiet to that effect was returned.

Frisco showed considerable more activity than it has for several days. The call brought to the nothing but bids of 214 and offers at 224, but after call there was some lively bidding, and 300 shares soid at 214 and 1,600 shares at 224a. The market at the close was 214 bid and 224 asked, but with no bidders. It was reported that important news had been received at the office, but a call there brought out the reply that nothing was expected until the weekly letter to morrow. The only reason for the bidding was that an attempt had been made to crowd it down at 15 cents, but this not having proved successful they were willing to take it at the best they could reach on present prices.

There was also a good deal of talk of Maj. Budd, and it held its own very well, with sales of 2,000 shares at 30, and with 20 bid and 314 asked, the close on call being at 32½ asked. There is considerable talk of Budd, as its affairs are said to have been completely adjusted, and the company is in good shape to go shead with work. Mullally, however, still appears as a selier at anything like selling prices, though he is a buyer when given any advantage on the market.

AMONG THE BROKERS.

It is new company, to proportion to their holding in the old one. At the meeting in the old one, at the directors; there were subout twenty-five interested people present, and there was a disposition to do some lively protesting, as the stockholders could not understand how their money had been wasted and the company involved in debt so that its sile would be necessary. The correspondence and reports from the mine were shown, however, and the meeting then became very harmonicus. The reports say that they are on the verge of a large body of rich ore and that there is no doubt that the mine will pay on its reorganization. The mill sand machinery cost more than the proposed new capital. The old company had 600,000 shares of a par value of file each. The subscriptions in the new company will close shonday next, and if not all taken then will be offered to others. Then if the reorganization sheme falls the property will be sold on its debts. Every one present at yesterday's meeting signed the subscription exceeds 50,000 shares. The stock not subscribing will be wiped out.

The Listing Committee of the Mining Extended to the Mining Intended to the Mining

Another new St. Louis mine was announced to-day. It is the Gold Queen, with three claims, located over the mountain from the Gold King, near Telluride, Colo. The President is Mr. John McBurney. A letter was received from him to-day, announcing his arrival at the mine. He save everything looks very encouraging. He found 50 toms of ore at the mill, a small custom one, and said it would run away up, as free gold showed all through it to the naked eve. The mill men said it would run at least \$30 to the ton. The No. 1 drift on the Triangle, one of the claims, had been run 125 feet, and the pay streak was 2½ feet wide and growing stronger. By August 1 he though they would certainly have 60 feet of good stoping ground.

\$8,000,000 a year will hardly be successful. British royalty exists for no other purpose but to show how liberally the British tax-payer can spend his money on a useless pageant, and he is too purse-proud to protest against any drafts on the liberality which is now the last vestige of his loyalty to the crown.

JUDGE COOLEY is known as an able lawyer and not as a skillful railroad manager. The chief purpose of the Trunk Lines Association, therefore, in offering him the Commissionership must be to enable it to evade the interstate commerce law. As the lines have evaded and violated the law with impunity while Judge COOLEY has been chairman of the Interstate Commerce Commission the conclusion was natural that he was well qualifled for the other place.

False Charge. ranh to the POST-DISPATCH. NEW YORK, July 25 .- Timothy Burke, a native of New Orleans, formerly a sailor on the United States ship Iroquois, and who has been employed as an engineer on the Isthmus of Panama for four years, arrived from Aspin-wall yesterday on the City of Paris. He affords another illustration of the injustice of the Colombian authorities towards American citizens. In September, 1888, Burke was hired by the captain of an Italian vessel lying off Aspinwall to repair the ship's pumps. The following day Thomas Kelly, one of the crew, was arrested for stealing the ship's chronometer and he claimed that Burke was an accomplice. Burke was also arrested. He was kept for thirteen days in a dark cell awaiting examination. A Lieutenant of the United States ship Atlanta took Burke some money collected for him on board that vessel. The money was piaced in the hands of United States Consul Vifquain, who did what he could for the prisoner, who had to bribe the jailers and buy much of his own food. After eleven examinations, which occupied six months, Burke was pronounced innocent. He was not, however, released, the authorities claiming that certain papers had not arrived from Panama. Burke was kept in prison three months and ten days after being declared not guity. the Colombian authorities towards American

The only trouble is that there is now no central or even district organization, and hence no authority to call a meeting. Whatever is done will therefore have to be individual, but after this call there would be a recognized authority hereafter. The way to begin would be by selecting a general executive committee, composed of representatives from each silver mining section or camp in the country. Palse FIGURES AT TO THE COST of producing silver in this country, and what they will result in, is the great danger to

which Mr. Michels calls attention. On this subject, discussing the matter at length, he says:

"The United States Senate, the House concurring, passed a resolution during the last session for the reprint and free distribution of the report of the British Commission on the precious metals. In this report, Prof. Austen of the Royai Mint, London, testifies that the cost of production of silver in this country varies from 5 cents to 48 cents per ounce, and the mean average of cost of production is 40 cents per ounce of time silver. So long as this British Commission Report cost \$7.50 per set of the four volumes to import into this country it mattered but little, for its circulation could under any circumstances be but very limited, but now that the reprints ordered by Congress are to spread these false English assertions broadcastover the country, it becomes a serious matter, and the danger which confronts the silver mining industry is by no means insignificant. Upon page 67 of Mr. Austen's testimony, Mr. Buchanaa, President of the Colorado Silver Alliance, is given as authority for this remarkable low cost of production, and herein lies, in my humble opinion, as so far all attacks on silver have come from the gold monometallists, our natural enemies, and their assertions lost a great deal of force, being ex-parte statements. But now comes the heaviest blow from the house of our supposed friends and I am informed upon the best authority that the National Bankers' Convention in August will bring this matter most prominently before the public, and use the statement of the president of the Colorado Silver Alliance in their arguments against the further colonage of silver. The present director of the United States Mint, Dr. Kimball, a most bitter enemy to the cause of silver, has also come to the public, and the makes a similar state-

The present director of the United States Mint, Dr. Kimball, a most bitter enemy to the cause of silver, has also come to their assistance and he makes a similar statement. He sent out circulars of inquiry to the miners of this country, and from the returns received he has selected 185 of the most successful and prolific mines. He gives it as his verdict that the average cost of production of silver in this country is 20 cents per ounce fine. Coupling this with Prof. Austen's statement, the Eastern bankers have already set the papers going, and the New York Press, the organ of President Harrison and Secretary Windom, has brought forth editorials against the silver certificates, claiming that they are not worthy of circulation on account of the cheap cost of production of silver. Mr. Porter, its chief editor, a born Englishman, who always writes against silver as money metal, has been rewarded for his seal with the position of Chief of the Census Bureau. Comment further is unnecessary.

EXCEPT IN FAVORED CASE

The testimony of unining men is that the Kimball-Austen estimate as to the cost of the production of silver is worthless. There are doubtless many mines in the country that will produce silver at the cost stated, it is said, or even many which, while some run above it, will give an average cost of about that given by these alleged authorities. These facts are what causes so muce indignation among men whose eatire interests and fortunes depend upon the success of mining ventures into which they have placed all their available means: First, that Americans should accept English testimony and English arrangements as to the cost of any great American product, and, second, that any American abould resort to the substruct so false the cost of production from the whole. The surroundings of the mines and the character of the ores of the mines of the United States are as varied as the features of any one industry could be. What is found in one ma

Had a general meeting of the silver mining interests been held some time ago it is believed that this embarrassment could have been speedliv overcome, while individual protests and arguments had but little weight.

A GREATER DANGER THREATENS NOW, however, as is fully explained in a statement made to the Post-Dispatch by Mr. Ivan C. Michels of the United States Senate Committee on Mines and Mining. Mr. Michels is in a position to know fully the needs and dangers of the mining industry. He cannot, however, he says, understand their apathy up to this time unless

Street Commissioner Burnet wrote to Mr. Charles Green asking him why the material was being put along Park avenue, west of Mississippi. Mr. Green replied with the following letter, which defines his intention very clearly and in very few words:

Geo. Burnet, Esq., Street Com DEAR SIR—Your favor of the 24th inst. has been received. In reply to the inquiry made in it I state that the rais to which you allude are being distributed along Park avenue by the Park Railway Co, preparatory to beginning the construction of the street railroad under the ordinance of the city numbered 8,788, and approved February 17, 1874. under the ordinance of the city numbered 8,786, and approved February 17, 1874. This company is anxious to complete the construction of the road as rapidly as possible. Respectfully, Chas. GREEN.

I Upon receipt of Mr. Green's letter Mr. Burnet referred the subject to City Counselor Beil, who replied by showing him the Journal of the Council containing a copy of Mr. Beil's opinion on the subject, rendered at the request of the Council, February, 1889, in which he declares the ordinance invalid.

The reason for the rendering of the opinion was that at that time the subject of giving the People's road a right of way on Grand avenue from Lafayette avenue to the east entrance of Tower Grove Park was under consideration. Then it was discovered that the Park Bailroad Co., whose franchise belonged to the People's Co., had a right of way on Grand avenue, of the contained a right of way on Grand avenue, unless the Park Co.'s ordinance was deciared invalid, as the People's road a could use that franchise and go over Grand avenue. The question was then referred to City Counselor Bell, who gave the following reply:

To the Honorable President and Members of the Council:

Council:

GENTLEMEN—I have received your resolution as follows:
Resolved, That the City Counselor is requested to advise this body in writing whether under ordinance 8,796 the Park Railway Co. is authorized to maintain and operate a horse railway in tirand awenue.

Proceeding to answer said resolution, I have the honor to state that the history of the Park Railway Co. is as follows:
Ordinance 8,786, approved Fabruary 17, 1874, conferred authority on the Park Railway Co.

Ordinance 8,786, approved February 17, 1874, conferred authority on the Park Railway Co. to construct and maintain a double track railway, to be worked by horse power only, on Park avenue, from Mississippi avenue west to Grand avenue, and Magnolia avenues, and thence west on said avenues 660 feet.

The ordinance requires that the company shall not be required to lay their tracks or extend and maintain the line for operation until within one year after the portions of Grand, Park. Magnolia and Fioral avenues over

The real estate was appraised upon the basis of what the property was thought to be worth at private sale within a reasonable time upon the usual terms of sales in vogue in the locality.

The company's office building in Hartford, valued at \$700,000, was appraised upon the basis of its value as an investment to the company. This building was constructed by the company in 1871 in the most substantial manner at a cost of about \$1,000,000. It is absolutely fire-proof, and its values afford a security for its books, papers, and securities nowhere else obtainable in Hartford. It is one of the most imposing edifices in the State, and has a value outside of its income production as an advertising medium, and as a home for the largest corporation of New England.

The assessed value of this property is \$700,000,000, of which \$275,000 is taxed by the city of Hartford and \$425,000 is exempted by the laws of the State as the value of the portion of the premises occupied by the company for its own uses.

A study of the situation made it evident to the Commissioner that no absolute knowledge of the limitations of this defalcation or of the possibility of a similar state of affairs existing in other localities could be had short of direct communication with each borrower. He has, therefore, caused to be sent, under the supervision of the department, a circular to each mortgagor stating the amount of his loan and interest due, as found upon the company's books and papers. Answers have been returned from most of these acknowledging the correctness of the statement. To those who have not answered a second notice is being sent out asking for a reply. Owing to death, changes of address, sales of the mortgaged property to third parties, etc., it would be unreasonable to await a reply from all without incurring a longer delay in publishing this report than the circumstances warrant.

The replies which have been received are from all sections and kinds of borrowers, and

Committeeman Edwin Silver of the Eleventh District is a member of the Legislature which adjourned two months ago, and is counted on as a candidate for Attorney-General in 1892.
Committeeman E. C. O'Day of the Thirteenth District and D. J. Alien of the Fourteenth are members of the Legislature and said to be candidates for Congress in their respective districts. A minth member is said to be in the employ of the Missouri Pacific Railroad as a Jefferson Oity representative. This is the condition of the committee at present, the proportion of political coltar-warers and ax grisders being larger than it has been for many years. How to bring about a change is what is bothering Senator Vest's friends just now he has the best of it in the State Committee.

SURPRISED THE TRADE.

FINANCIAL EMBARRASSMENT OF LEWIS BROS. & CO., DRY GOODS DEALERS.

The Firm One of the Heaviest in the Trade in the United States-The Liabilities Estimated at \$4,000,000—Assignment of the Philadelphia Branch House—Latest Developments.

By Telegraph to the POST-DISPATCH.

New York, July 25.—The announcement was made in the dry goods district late yesterday afternoon that the firm of Lewis Bros. & Co., come embarrassed and would make an assignment to-day. The report was received with surprise by those who heard it, and at first little belief was attached to the rumor. Nothing could be learned of the truth of the first little belief was attached to the rumor. Nothing could be learned of the truth of the report at the place of business, as the members of the firm were all said to be away. In the evening it was ascertained that the rumor was based on the fact that several notes of the firm went to protest during the day and despite all their efforts members of the firm had been unable to make the notes good. The house of Lewis Bros. & Co. is one of the largest in the district. It is one of the oldest and has been regarded up to the present time as among the strongest and has bad almost unlimited credit. It does a large commission business in print goods and represents several Massachusetts mills. The members of the firm are Walter H. Lewis, Joseph W. Lewis, Henry Lewis and John L. Boardman. Walter H. Lewis is the resident member of the firm. His bome is at No.63 West Nineteenth street. All the other members of the firm live out of the olfy, and could not be found last evening. From what could be ascertained, the embarrassment of the house is caused by carrying too large a stock and by backward payments. The liabilities are said to reach nearly \$4,000,000 and an examination of their books and stock was in progress yesterday to ascertain exactly how they stood. Those who had some knowlege of the affairs and the business of the horse thought the difficulty would only be temporary and the firm would resume business in a short time. Walter H. Lewis was seen late last night at his home, in West Nineteenth street. He declined, however, to make any statement or assignment year. The assignment of Lewis Bros. & Co. was field in the County Cierk's office here this afternoon. Cornelius N. Bliss is made assignee. The assignment was executed in Philadel-phia.

According to current report the liabilities of the embarrassed firm amount to nearly \$4,000,000, which it was thought could be more than covered by the resources when the latter were in shape to be immediately available. A reporter who visited the firm's store, No. 86 Worth street, today found the manager and employes on hand and apparently as busy as bees. of them were talking to customers and friends
of the house.

"Has the firm made an assignment?" was
asked of the man in command of the army of
workers.

"Not yet," was the reply.

"Do you think the house will be tided over
the difficult?"

"Yes, but the members of the firm are not
here and I can't speak authoritatively. I expect they will come to the store late this atiernoon."

The absence of Lewis Bros. & Co. from their
place of business during the forenoon gave
rise to the supposition that they were endeavoring to make arrangements to take up the
protested notes. It was understood that if the
firm could be given a little time they would be
able to pay in full and continue business without detriment to either themselves or their
customers.

New York, July 25, 11 a. m.—The stock market opened this morning with a renewal of the weakness of yesterday and first prices on a moderately active business were from 1s to & per cent lower than last evening's closing figures. Further losses were made all over the list, though they were confined to small fractions generally. A few stocks, however, displayed marked weakness and gave to the market what character it possessed. Of these Missouri Pacific and the new C. C. & & St. Louis common stock were most prominent, each at the lowest point showing a net loss of 1st per cent from last evening's price Sugar refineries fell 1s, Burlington & Quincy 3 and Atchison \$\frac{1}{2}\$. Hours refineries fell \$\frac{1}{2}\$, Burlington & Quincy 3 and Atchison \$\frac{1}{2}\$. The market became dull toward the other stocks were at about their opening figures. The market became dull toward the end of the hour, and at 11 o'clock it was firm at close to first prices.

Noon-Moncy is easy at 2@3 per cent. Bar silver, \$224. In the stock market after 11 o'clock there was an active business main tained in St. Paul, but the rest of the list was dull and featureless throughout. A firm tone still prevailed and further slight advances were scored but the movements in the market were entirely insignificant, and no feature of importance was shown. At noon the market was dull and firm to strong at the highest prices of the morning.

THE NORTHWESTERN WHEAT CRO Dakota Yields.

SNEAPOLIS, Minn., July 25 .- The following estimate was compiled by Col. Rogers of the d, one of the most reliable statis in the spring wheat sections has progresse enough toward maturity so that it is possible to form something like a fair estimat than was commonly figured a few weeks ago there is not the least doubt. The greatest trouble is in arriving at approximations of acreage that are below average and above average. It will be about fair to offer the increase in acreage with the amount plowed up and that not plowed up that will not be cut, leaving the acreage about the same as last year. If Minnesota gets fifteen bushels, which many think not too high, the total would be some 47,000,000 bushels, and for both Dakotas eight bushels may not be too high, or a round-up of 25,000,000 bushels, making 80,000,000 for both. The last crop, while called 60,000,000 total, was more than 70,000,000 bushels, perhaps not below 75,000,000 of all sorts. It is quite generally conceded that the promise is for some 10,000,000 bushels more than a year ago, which concession, if correct, would indicate 80,000,000 to 81,000,000 bushels more than a year ago, which concession, if correct, would indicate 80,000,000 to 85,000,000 bushels this year. Cutting is getting quite general in the South and will begin in the North next week, so far very little shrunken wheat has been discovered, but some is in a stage that might be affected yet. was commonly figured a few

The Commander-in-Chief Discusses G. A. R. and Indian Affairs.

BISMARCK, Dak., July 25 .- Maj. Warner mander-in-Chief of the Grand Army of the Republic and a member of the Sioux Com-Standing Rock to-day. In speaking of the rent troubles between the Grand Army and the railroads with regard to rates to the Na-

cent troubles between the Grand Army and the railreads with regard to rates to the National Encampment, to be held at Milwaukee, he said the G. A. R. would go ahead with its encampment and will treat the people of Milwaukee with the respect and consideration to which their generous preparation entitles them. He added significantly: "We will settle with the railroads afterward." He says the Eastern people will suffer little by the refusal of the roads to give a special rate to the encampment, but it will be a hardship on the G. A. R. men of the West, where rates are high.

With regard to the prospect for the success of the commission now treating with the Sioux Indians for the opening of the freeservation, Maj. Warner said that the result at Cheyenne is not satisfactory nor encouraging, and that he has little knowledge of the feeling of the Indians at Standing Rock, to which agency the commission is now en route. Gen. Crook and the other commissioners are going to Standing Rock by boat. It is at that place that the commission will meet the most uncompromising and able opponents in the persons of Sitting Buil; Gall and John Grass, who are said to be as strongly opposed to the opening of the reservation as they were a year ago. Sitting Buil is improving in health and will be present at the conference.

THE ILLUMINATION ABANDONED.

The meeting which was called at the Mer-cantile Club last night by those interested in repeating the illumination was attended by only seven business men. Mr. John S. Moffitt, Mr. Whitsett, Mr. Yeakle and four others were present, but at the present time so many of the active business men of the city who take part in the management of the fall festivities are out of the city that it proved impossible to get together a committee large enough to do the work. Mr. Moffitt presided and stated that invitations to attend the meeting had been sent out. Mr. Whitsett moved that the previous action of the committee in determining to abandon the illumination be affirmed, and the motion was carried. Mr. Moffitt will return the money subscribed to the Festival of Fire to those who donated it.

TO ENTER THE LEAGUE.

THE ST. LOUIS BROWNS WILL, ACCORDING TO A PITTSBURG ROMANCE.

stails of a Scheme of Which President Von der Ahe Has No Knowledge—The Browns bhut Out at Columbus—Brooklyn in the Forging to the Front.

By Telegraph to the POST-DISPATOR. ITTSBURG, Pa., July 25.

ITTSBURG, Pa., July 28.— Charley Janny, a business man of St. Louis who was in the city yesterday, told of a deal in base ball that, if it proves to be a fact, will be one of the most sensational events in the history of the national game that has taken place for many years. Mr. Janny stated his information came from Geo. Munson, came from Geo. Munson, cretary of the champion Browns. Munson, so it is said, told the story in confidence to one of his friends, and the latter let it leak

out and in that way it got circulated about.
The deal, as related by Janny, is
in brief, that Von der Ahe has been corresponding with President Hewitt of the Washington Club with a view of transferring the Browns to that city, and the final arrange nents were made a few days ago. The Washington club has always been a tail-ender in the League. Notwithstanding this, it draws good crowds and has made some money. If the team was a winning one the club would be one of the most prosperous in the League. Several attempts have been made strengthen the Washingtons and this year big money was spent to se-cure good players, among them being Morrill, Wise, Irwin and others; but it was all of no avail. It is now assured that next season Washington will be represented by a team second to none in the League. At the close of this season the present St. Louis Club will be transferred bodily to Washington; O'Day, Mack, Hoy and Wilmot, now with the Senatorial team, will also be retained there and the remainder of the players will be disposed of or else sent to St. Louis. Von der Ahe will nave nearly the full ownership of the new Washington club, Mr. Hewitt re-taining only a small interest. Charlie Com-iskey will, of course, handle the club as he has done in the past.

The above special telegram which was re ceived at this office is one of the many 'fakes' which have been started over the country from Pittsburg. When Mr. Von der Ahe was questioned concerning the removal scheme he laughed outright. He said he had never even negotiated with the Washington people, and that he had no intention of leaving the American Association. It was merely one of those periodical stories which go over the country about the Browns going to enter the League. Mr. Von der Ahe says he never heard of Charley Janny, the alieged author of the yarn, and Secretary Munson also states that he never knew such a person and never thought of such a story as is credited to him. There is no Charles Janny in business here; there is no such name in the city directory and no one could be found who had ever heard of such a person. Only the Pittsburg papers appear to know Janny. country from Pittsburg. When Mr. Von der person. Only know Janny.

Gleason and Herr Signed.

Joe Pritchard signed to-day Joe Herr and five William Gleason for the Evansville Club of the Central International State League. Both men are to receive good salaries, and it is stipulated in their contracts that they are not to be reserved. Bill Gleason, everybody knows, was formerly the great shortstop of the Browns, later of the Athletics and recently of the Louisvilles. Herr was a member of the Brown Stockings last year, playing third and in the field occasionally. He is a fair fielder and good hitter. The men will no doubt greatly strengthen the Evansvilles.

The Browns were shut out at Columbus yesterday by a score of 5 to 0. Stivetts pitched, but while not hit freely, was extremely wild. In the first five inn extremely wild. In the first five innings he sent six men to base on balls and he was then removed from the box, Chamberlain taking his place. The Browns were unable to do anything with the delivery of Widner, who pitched for Columbus. O'Connor was his backstop, while Milligan caught for the Browns. Base hits—Columbus, 7; St. Louis, 6. Errors—St. Louis, 1; Columbus, 2. Again yesterday the Kansas City Club lost a game at Brooklyn after holding the lead up to the closing innings. The score was 7 to 6 in the Bridegrooms' favor. Batterles—Sowders and Hoover for Kansas City and Terry and

Kensas City, 7. Errors—Brooklyn, 6; Kansas City, 4.

Cincinnati again won at Philadelphia yesterday by a score of 6 to 5. Mulliane pitched three innings for Cincinnati and then gave way to Viau. Both were effective. Earle did the catching. McMahon and Robinson were the Athletic battery and the former did remarkably well, but was given miserable support. Base hits—Athletic, 6; Cincinnati, 5. Errors—Athletic, 11; Cincinnati, 5.

Louisville was defeated at Baltimore by a score of 17 to 3. Kiiroy and Tate for Baltimore, and Ewing and Cook for Louisville were the batteries. Base hits—Baltimore, 19; Louisville, 11. Errors: Baltimore, 6; Louisville, 12.

LEAGUE GAMES.

At Boston the home team defeated the Washingtons by a score of 12 to 3. Madden and Kelly were the Boston battery, O'Day and Sullivan did the pitching and Clarke the catching for the Washingtons, Base hits—Beston, 14; Washington, 8. Errors—Boston, 5; Washington, 9.

For the third consecutive time the New For the teater of the teater o

ing for the Washingtons. Base hits—Boston, 1; Washington, 8. Errors—Boston, 3; Washington, 9.

For the third consecutive time the New Yorks were defeated at Philadelphia yesterday, the score standing 15 to 6. Keefe of the New Yorks was batted so freely in the first three innings that he was removed and Crane substituted. The Inter was also batted very hard. Ewing caught for New York. Buffuton and Clements were the Philadelphia battery. The game had to be called at the end of the seventh inning on account of darkness. Base hits—New York, 7; Philadelphia, 15. Errors—New York, 6; Philadelphia, 16.

At Cleveland the home team were beaten in the last inning by the Pittsburgs, the final score standing 5 to 4 in favor of the visitors. Gaivin and Miller for Pittsburg and Eskely and Zimmer for Cleveland were the batteries. Base hits—Cleveland, 12; Pittsburg, 12. Errors—Cleveland, 3; Pittsburg, 2.

Two games were played at Chicago yesterday, the home team winning the first and the Indianapolis Club the second. The score of the first was 3 to 2. Tener and Farreli were the Chicago battery and Rusle and Myer were in the points for Indianapolis, 5. Errors—Chicago, 3; Indianapolis, 5. Errors—Chicago, 6; Indianapolis, 10. Errors—Chicago, 6; Indianapolis, 10. Errors—Chicago, 6; Indianapolis, 10. Errors—Chicago, 3; Indianapolis, 10. Errors—Chicago, 5; Indianapolis, 1.

The Championship Race.

Piere Won

Diamond Chat. The Baltimores and Cincinnatis are playing very strong games just at present. The Athletics are traveling down grade rapidly. They are now in fifth place, Baltimore and Cincinnati having both passed them.

piace, and will bet I to 3 that they are not as good as second in the race.

New York's three successive defeats at Philadelphia has given the Bostons a fair lead again. The Bean Eaters now have won three rames more and lost three less than the rights. These games, however, have given the Philadelphias a big lift. They now stand even with Cleveland in the matter of games lost and are only one game behind in the matter of games won.

St. Louis Bicycle Track Ass A meeting of the stockholders of the St.

PROBABLE ACTION OF THE BOARD WHICH

The Course of Study Committee Determined

11. The section which was recommitted was that which had reference to the kindergarter question. It was as follows: THE OBJECTIONABLE SECTION.

THE OBJECTIONABLE SECTION.

It appears from the testimony given on the subject, that children admitted to the regular work of the primary department of our schools at 6 years of age are apt to make much slower progress than those commencing at 7. There are, of course, many pupils whose precocity enables them to begin the work of the first grade without detriment before they reach the age of 7. Such pupils are provided for by the excellent system of promotion which extends from the kindergarten through the High School.

For the average child there seems to be no doubt but that the first year of school life is well spent in the kindergarten.

The unqualified indorsement thus given to

The unqualified indorsement thus given to the kindergartens, after a six months' investigation of the system, and the eliciting of many acts, which it was thought by some did not warrant such a hearty approbation, was not received by the board favorably, and while the rest of the report was adopted that part referring to the kindergartens especially, was referred back for reconsideration. In view of the fact that the recommendations of the committee did not suit the board, the substite change to Judge Anderson's court. tution of either of four suggestions made was considered. These suggestions were as follows: First, the recommendation of a half day kindergarten only. Second, a whole day kindergarten. Third, to have children attend half day kindergarten and half day primary. Fourth, to give parents the privilege of allowing their children to go either into the kinder special control of the control of th garten or primary when they enter schools Dennis, who is an old time reprobate and at 6 years of age. kindergarten or primary. I am as atrong an advocate of the kindergartens as anybody, but the fact is that it is a question whether or not in making it compulsory for the child to enter the kindergarten at 6 years of age, or rather, I should say, not allowing children at that age to enter the primary, we are not exceeding our authority. The State iaw fixes the school age at 6 years of age, and in refusing parents the privilege of entering their children in the primary at that age, it is a question, I say, whether we are not depaiving them of a right to which they are entitled."

The kindergarten people are much exercised over the Course of Study Committee's very probable decision this evening, and it is reported that the society of kindergarten advocates of which Mr. Henry Hitchnock is at the head, and which is always up in arms whenever a blow at the kindergarten system is threatened, will make a fight to have the board let the present system alone. What the school directors were speaking about fo-day as the contemplated "compromise" they referred to openly confess that the kindergarten was not regarded as a part of the school system, but simply as a praparatory training good enough

The Course of Study Committee Determined to Make It Optional With Parents Whether Their Children Enter the Frimary or Kindergartens—Belief That This Will Hurt the System—Miss McCulloch's Novel Plan.

HERE is a strong probability that the kindergarten system will receive a set-back in St. Louis. The first step in this direction will likely be taken by the Course of Study Committee at the meeting to be held this evening for the purpose of reconsidering a section of sidering a section of sidering a section of the report on the school system made

Important Capture Made by the New York Police.

By Telegraph to the FOST-DISPATCH. NEW YORK, July 25. - The rooms or offices of Wm. C. Burns at No. 17 Moore street were in

vaded by the police yesterday, and nearly \$5,000 in money and 150 boxes and straps were goods'' business in the place under the name of Eliis. He was arrested over a week ago by Mr. Anthony Comstock in consequence of a number of complaints made by countrymen who had been victimized by him, and was arraigned in the United States Court and held in \$2,000 bail to answer. Some days later a search-warrant was issued by Justice O'Reilly in the Tombs Police Court for the examination of the establishment, and the return of the writ was made yesterday. Mr. Comstock and his assistant, Mr. Drum, accompanied by Capt. McLoughlin and a special officer from the Old Sip Station, went to No. 17 Moore street shortly after noon and found Burns' office locked. The door bore the legend, "T. C. Ellis & Co., Dealers in Diamonds and Jewelry." and looked as it it might have opened upon a very respectable house of that kind. The officers of the law knew better, however, and burst the harrier open. The wails were covered with railroad maps and a big, wide desk stood in the furthest corner of the second room. The inside of the desk was decked out with guides and maps like the walls and there were timetables and directories and books descriptive of interesting resorts in various localities scattered about in careloss profusion. There was a wide space between the desk and the partition cutting off the adjoining apartment, and this space was masked from the ordinary observer by boards painted like the desk. The desk was one of those that have a flap or panel in the desk was faise. It was really nothing more than a sliding door. It was skillfully covered, however, by the railroad maps and calendars. These were nailed and pasted up so as to lap over one another and completely conceal the deceptive door, while they were immovable. Back of the desk, under cover of the painted boarding, was a panel in the wooden partition.

Mr. Comstock explained that an accomplice in the negotiation of the green goods would be in the worden partition.

that institution a hard-nearleed policeman again ran him in as a vagrant. Judge Cady sent him out of town for three years on a fine of \$500 and stay of execution. The old man took sick away from home and friends and came back to St. Louis to receive care and medical attendance. He recovered after a siege of sickness and was just able to walk on the streets yesterday when a "copper" captured him again. It was for a further stay to allow Kavanaugh to zet out of town that Attorney Clark argued this morning and his appeal was successful. The prisoner was given until 8 o'clock p. m. to leave.

A BOLD ROBRES.

The Curious Story Unfolded To-Day in Judge Cady's Ceurt.

Thos. Blake, well-known in police circles, was sent to the Work-house this morning on a fine of \$100 from the First District Police Court for disinrbing the peace. The real charge was one of attempted robbery. Late last night, as was shown by the testimony, a barber named Fred Haustein was seated in front of the shop at \$607 Market street when Blako approached, and without a word of warning struck Hautein twice on the head with his fist.
